💼 My Portfolio   www.github.com/music1991

Profile

React Developer with a solid background in Systems Analysis and strong results orientation. I combine analytical thinking with creativity, empathy, and collaborative leadership, delivering scalable, clean, and efficient solutions across web and mobile environments.

My focus is on creating real impact: optimizing processes, reducing errors, and strengthening teams through effective communication, continuous learning, and commitment to quality.

Passionate about personal and professional growth, with an end-to-end understanding of business and a proactive approach to challenges.

Professional Experience

Frontend Developer (React Js & React Native) - totalcoin
Jul 2022 - Aug 2025

Participated in the development and enhancement of high-impact digital products (Web & Mobile App).

- Implemented the debit card management module, automating activation and operations directly from the app, improving user experience.
- Contributed to the full redesign of the company's web and mobile wallet, modernizing legacy code and applying best practices in React Native and React JS. These improvements and technical debt refactors significantly enhanced user experience, making the applications faster, smoother, more stable, and visually engaging, with fewer errors and a clearer, more intuitive navigation.
- Worked closely with the UX Design team using Figma to implement interface and experience improvements, and collaborated with backend developers through code reviews and pull request validation to ensure code quality and consistency.
- Collaborated with the team to develop solutions for the Security and Compliance department, automating processes and reducing review and approval times by 40%.
- Leveraged AI to automate repetitive coding tasks, cutting development time by half and increasing efficiency and product quality.
- Promoted a collaborative and empathetic work environment, encouraging open communication, cooperation, and continuous improvement within the team.

Systems Analyst – FLASH Postal Services
Aug 2020 - Jul 2022

Designed, developed, and optimized internal systems that digitalized and automated operational processes.

- Built a QR code generation and scanning system for package tracking, reducing management times by 70% and eliminating manual errors.
- Developed a platform using Google Maps API to monitor routes and deliveries in real time, improving timing and optimization of shipments and tracking.
- Implemented a staff attendance control system that automated the calculation of schedules, attendance, and absences, improving administrative management by over 60%.
- Applied the SCRUM methodology throughout the software development lifecycle, ensuring proper planning, control, and continuous improvement in projects.

Customer Support Representative – Teleperformance
Sept 2019 – Jul 2020

- Provided technical support for Internet, TV, and telephony services.
- Developed assertive communication, empathy, and effective problem-solving skills under pressure.
- Achieved high levels of customer satisfaction and consistently met performance metrics.

Technical Skills

- Frontend: React, React Native, TypeScript, JavaScript, HTML, CSS, Python, PHP
- Backend: C#, .NET
- Web Services: RESTful APIs
- UX Design: Figma
- Methodology: Scrum
- Project Management: Jira, Git, Bitbucket
- Versioning & Packages: npm, yarn
- Databases: MySQL, SQL Server, PostgreSQL
- IDEs: Visual Studio 2019–2022, Visual Studio Code

Education

- Information Systems Engineering (final exams in progress) – National Technological University Tucumán Regional Faculty (UTN-FRT)
- Leadership Course – Escuela de Oratoria y Liderazgo Argentina (February–May)
- React JS Professional Training (2022)
- Anglo Institute – English Course (2022, certified)
- Information Systems Analyst – UTN-FRT (2019)
- UTN-FRT – English Course (2014)

Languajes

Spanish (Native) · English (B2) · German (A1)
